Phifer Sheerweave Roller Shades

These solar shades have a basketweave design made expressly for those insulating and glare-blocking applications which require a more private and non-directional fabric. The material is a PVC-coated fiberglass yarn.

All Sheerweaves roller shades come standard with a continuous loop clutch mechanism for easy control. This system raises and lowers the sun shades smoothly and evenly for trouble-free performance. No more long, dangling cords or frustrating cord locks or cleats.

This product is perfect to finish a room and block some of the sunlight while keeping your view!

Features:

- All mounting hardware and screws are included. (hardware is white)
- For fuller fabric look, you can select a Roman Fold Roll Up for a slight upcharge.
- Wide range of colors to choose from to match any decor.
- Optional 3 1/2" Dust Cover Valance is available as well as aluminum fascia and other options.
- Comes with the Continuous Loop Clutch Roller for smooth operation.
